

Connecting Nutrients Towards Profitability

RHIZAgold[®]

Root Enhancer

BIOTRACK TECHNOLOGY (M) SDN BHD is a leading Agro-biotechnology company in Malaysia and Asian region which produces several bio-based and natural products. BioTrack Technology (M) Sdn Bhd has also the capability and capacity to produce Mycorrhiza Rhizobium, bio-pesticides, bio-fungicides, bio-nematicides and bio-fertilizers.

What is Mycorrhizae?

The word mycorrhiza literally means “Fungus Root” and defines the close mutually beneficial relationship between specialized soil fungi and plant roots. There are three categories of Mycorrhiza. About 95% of the flowering plants form the Arbuscular mycorrhizal relationships in their native habitats.

What is RHIZAgold[®] Root Enhancer?

RHIZAgold[®] is a premium and miracle product which consists of a selected cocktail mixture of Arbuscular Mycorrhizal Fungi (AMF). It's suitable and highly beneficial to Agricultural, Horticultural, Forestry and Plantations crops. **RHIZAgold[®]** has 12 species of Viable Arbuscular Mycorrhizal fungi with an effective concentration of 250-300 spores/10g product.

Advantages of RHIZAgold[®]

- Increases uniform root and shoot growth and establishment
- Increases Nutrient and Water Uptake
- Promote Higher yield
- Reduces Chemical fertilizer usage
- Protects against drought, salinity and heavy metals
- Maintains soil fertility
- Provides resistance to root borne diseases
- Reduces transplanting stress and plant loss
- Improves the hardening Process of Tissue culture raised plants
- Increases Field survival of Tissue culture raised plants.

APPLICATION DOSAGES

Crop/Plants	Recommended Dosage
Oil Palm - Nursery - Pre Nursery - Main Nursery - Field - Ganoderma infected palms	10g/seedling 40g/seedling 250g-500g/palm 1-2kg/palm
Fruit Trees/Forest plants - Nursery - Small/Immature Plant - Mature Plants	50g/seedling 200g-500g/tree 500g-1000g/tree
Ornamentals - Potted - Ground	50g-100g/plant 50g-200g/plant
Turf/Grasses	1000g/10m ²
Sugarcane	5-7kg acre
Banana	50g/hole
Tea/Coffee Nursery Field	2-5g/seedling 10-20g/bush

APPLICATION METHOD

Nursery

1. Apply the required amount of fertilizer at the bottom of the planting hole.
2. Lightly cover the fertilizer with 3.0-5.0cm of soil.
3. Inoculate **RHIZAgold**[®] around the root zone and cover with soil.

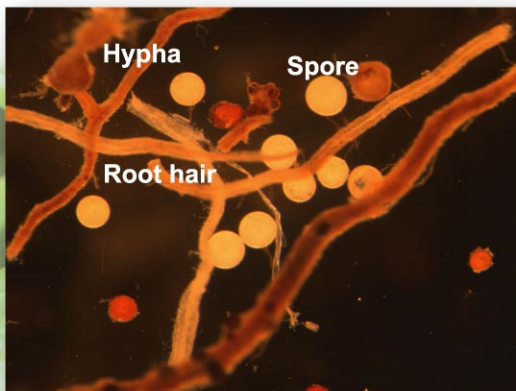

Field Planting

1. Apply the required amount of fertilizer at the bottom of the planting hole.
2. Lightly cover the fertilizer with soil.
3. Inoculate **RHIZAgold**[®] around the root zone and cover with soil.

Plants in the field

1. Prepare 5 pockets, of 20cm deep and 0.5m from the base of the plants.
2. Inoculate **RHIZAgold**[®] equally in the pockets and cover with soil.

SHELF LIFE & STORAGE

24 months. Store in cool and dry place. Do not expose to direct sunlight for long periods.

COMPATIBILITY AND BIOSAFETY

RHIZAgold[®] Avoid mixing with pesticides, fungicides, herbicides and chemical fertilizers. AMF spores are obligate symbiotic microbes that are not known to infect humans.
